

# Fix List for Codex — Live & Verified

WordPress + WooCommerce + Elementor · live URL: <https://xn--anhngerplus-n8a.de> · 2026-07-25

**German legal hard-stops.** This shop targets Germany, so a missing Impressum and missing Widerrufsbelehrung are not just Google issues — they are legal violations. They must be published before Merchant Center. Prices and German policy pages already exist, so this store is close. Rules: edit the LIVE site, verify each change from the public URL, and **never invent facts** — legal operator details must come from the owner.

## FACTS NEEDED FROM THE OWNER (do not invent)

- Impressum details: full legal operator name + legal form (Einzelunternehmen / GmbH ...), full street address incl. house number, phone, email, and VAT-ID (USt-IdNr.) + register entry if applicable.
- Identity decision: is the business really selling excavators? Then brand/domain/homepage must say so (the name “AnhängerPlus” = trailers). Confirm B2C or B2B-only.
- Confirm the real business email to show publicly (remove personal hillkandil@gmail.com).

## FIX 1 · Publish an Impressum (legally mandatory, §5 DDG)

Create a published /impressum page and link it in the footer on every page. Use this German skeleton — replace every «...» with the owner’s real value; do not guess:

Impressum

Angaben gemäß § 5 DDG

«Rechtlicher Betreibername», «Rechtsform»

«Straße + Hausnummer»

«PLZ» «Ort», Deutschland

Vertreten durch: «Name der vertretungsberechtigten Person»

Kontakt:

Telefon: «Telefonnummer»

E-Mail: «geschäftliche E-Mail»

Umsatzsteuer-ID: «USt-IdNr. gemäß §27a UStG» (falls vorhanden)

Registereintrag: «Handelsregister / Amtsgericht / HRB-Nr.» (falls vorhanden)

Plattform der EU zur Online-Streitbeilegung: <https://ec.europa.eu/consumers/odr/>

```
wp post create --post_type=page --post_title='Impressum' --post_status=publish \
  --post_name='impressum' --post_content="<the filled-in HTML above>"
# add it to the footer menu, then VERIFY:
curl -s https://xn--anhngerplus-n8a.de/impressum/ -o /dev/null -w '%{http_code}\n' # expect 200
curl -s https://xn--anhngerplus-n8a.de/ | grep -ci impressum # expect >0 (foote
r link)
```

## FIX 2 · Publish a Widerrufsbelehrung (14-day right of withdrawal)

Required for consumer (B2C) distance sales. Create /widerrufsrecht, link in footer. Skeleton:

### Widerrufsbelehrung

Widerrufsrecht. Sie haben das Recht, binnen vierzehn Tagen ohne Angabe von Gründen diesen Vertrag zu widerrufen. Die Widerrufsfrist beträgt vierzehn Tage ab dem Tag, an dem Sie oder ein von Ihnen benannter Dritter die Waren in Besitz genommen haben.

Um Ihr Widerrufsrecht auszuüben, müssen Sie uns («Betreibername, Adresse, E-Mail, Telefon») mittels einer eindeutigen Erklärung über Ihren Entschluss informieren.

Folgen des Widerrufs. ... Rückzahlung binnen vierzehn Tagen ...

Muster-Widerrufsformular (ausfüllbar) beifügen.

Note: for large machinery, add any lawful exceptions honestly. If sales are strictly B2B, state that clearly instead. Use a German legal generator (eRecht24 / Trusted Shops) or a lawyer for final wording — do not improvise legal text.

```
# VERIFY: curl -s https://xn--anhngerplus-n8a.de/ | grep -ci widerruf # expect >0
```

## FIX 3 · Make the identity coherent (brand ↔ products ↔ language)

- Homepage + brand must match what's sold. If it sells excavators, say so (don't leave a trailer brand over an excavator catalog). Remove/retitle the shipping-container blog if it's not the business.
- Set a real site title + meta description (currently the placeholder "anhngerplus.de").

```
wp option update blogname 'AnhängerPlus' # or the real brand
# set titles/meta in the SEO plugin; VERIFY the <title> is no longer 'anhngerplus.de':
curl -s https://xn--anhngerplus-n8a.de/ | grep -o '<title>[^<]*</title>'
```

## FIX 4 · Translate product titles/descriptions to German

Product titles are in French ("3 GODETS", "tondeuse à gazon", "reconditionné"). Translate to correct German (godets→Löffel/Schaufeln, reconditionné→generalüberholt, tondeuse→Rasenmäher), keeping specs accurate. Bulk via WooCommerce REST:

```
GET /wp-json/wc/v3/products?per_page=100&page=N
PUT /wp-json/wc/v3/products/<id> { "name":"<deutscher Titel>", "description":"<deutsch>" }
# VERIFY: no French terms remain:
curl -s https://xn--anhngerplus-n8a.de/shop/ | grep -Eio 'godets|reconditionn|tondeuse' # expect nothing
```

## FIX 5 · Remove the personal Gmail from the public front end

```
# change the author display name / reassign posts off the personal account:
wp user update <id> --display_name='AnhängerPlus'
wp search-replace 'hillkandil@gmail.com' 'info@anhängerplus.de' --all-tables
wp cache flush
# VERIFY (expect 0):
curl -s https://xn--anhngerplus-n8a.de/ | grep -c 'hillkandil@gmail.com'
curl -s https://xn--anhngerplus-n8a.de/author/hillkandilgmail-com/ -o /dev/null -w '%{http_code}\n' # 404/redirect
```

## DEFINITION OF DONE — run against the public URL

```
curl -s https://xn--anhngerplus-n8a.de/impressum/ -o /dev/null -w "impressum:%{http_code}\n" # 200
curl -s https://xn--anhngerplus-n8a.de/ | grep -ci widerruf # >0
curl -s https://xn--anhngerplus-n8a.de/shop/ | grep -Eic "godets|reconditionn|tondeuse" # 0
curl -s https://xn--anhngerplus-n8a.de/ | grep -c "hillkandil@gmail.com" # 0
curl -s https://xn--anhngerplus-n8a.de/ | grep -o "<title>[^<]*</title>" # real name
```

Report back the output of each Definition-of-Done line. “Done” = Impressum 200 + Widerrufs link present + no French terms + no personal Gmail + a real title — all verified on the live URL, not on API responses.

Generated by the GMC Audit Bot skill. Not legal advice — have the Impressum/Widerruf wording confirmed via a German legal generator (eRecht24 / Trusted Shops) or a lawyer. Merchant Center approval is discretionary; high-value machinery gets manual review.
