Scope — long-term equipment supply

ASMIN ApS offers continuous supply of new 5–8 tonne midi excavators across all major manufacturing origins: Chinese value brands, Korean, Japanese and European/North American premium marques. Pricing below is structured for repeat and framework offtake rather than single-unit sale.

Important — indicative pricing, not a firm offer

The unit prices in this document are indicative market ranges for new machines in standard specification, quoted FOB port of origin. They are provided to establish budget and brand direction. Firm prices are issued per order against a current factory quotation and depend on final specification, order volume, emission standard, destination and prevailing FX. Ranges do not include freight, insurance, duties, VAT or local homologation.

LONG-TERM VOLUME STRUCTURE

1 – 4 units List Spot order	5 – 9 units –3% Per shipment	10 – 24 units –6% Consolidated	25 – 49 units –8% Scheduled release	50+ / annual –10% Priority allocation
--	---	---	--	--

COMMERCIAL SUMMARY

Equipment class	Midi excavators, 5.5 – 8.6 t operating weight	Minimum order	1 unit; framework from 10 units p.a.
Condition	New, factory build, current model year	Lead time	30 – 150 days by brand and tier
Brands offered	23 marques across 4 origin tiers	Warranty	12 months / 2,000 hours, manufacturer standard
Indicative price band	USD 26,000 – 150,000 per unit	Emission spec	EU Stage V, EPA Tier 4F or non-regulated
Incoterms	FOB origin; CIF / DAP on request	Offer validity	30 days from date of issue

STANDARD SCOPE OF SUPPLY

- Standard digging bucket and cutting edge
 - Rubber or steel tracks to buyer's choice
 - Enclosed cabin with heating and air conditioning
 - Dozer blade, boom swing, auxiliary hydraulic circuit
- Mechanical or hydraulic quick coupler (option)
 - Operator and workshop manuals, CE declaration
 - Starter spare parts and filter kit (option)
 - Factory commissioning and operator briefing (option)

Mecalac	6MCR / 8MCR	6.3 – 8.5 t	46–55 kW	110,000 – 150,000	90–150 d

Reading this schedule

Ranges span the lightest to the heaviest model listed for each brand and reflect standard versus high specification. Tier 1 pricing assumes non-regulated or EU Stage V engines built for export; Tier 3 and Tier 4 pricing assumes full EU Stage V or EPA Tier 4 Final compliance, which is the main driver of the gap between tiers.

PAYMENT TERMS

Spot orders	30% deposit against proforma, 70% against copy B/L	Beneficiary	Putro Tatjana
Framework orders	30% on release, 70% before each shipment	IBAN	BE54 9058 6681 0797
Orders > USD 250k	Irrevocable L/C at sight, confirmed	BIC / SWIFT	TRWIBEB1XXX
Currency	USD; EUR on request at spot rate	Bank	Wise Europe SA, Rue du Trône 100, 1050 Brussels, Belgium

DELIVERY AND LOGISTICS

Incoterms	FOB port of origin (default)	Loading	1 unit per 40' FR up to 8 t class
Alternatives	CIF, CFR or DAP quoted on request	Documents	Invoice, packing list, B/L, CoO, CE / EPA
Shipment	RoRo or 40' flat rack / open top	Inspection	SGS or buyer's agent at buyer's cost

FRAMEWORK SUPPLY CONDITIONS

- Volume discounts apply to the aggregate units released under a signed 12-month framework, not per shipment, so committed volume is rewarded even when drawn down in small lots.
- Prices are held for the framework period against a fixed specification; changes in emission standard, factory list price or FX beyond $\pm 5\%$ are passed through and notified in advance.
- Allocation priority and reserved production slots apply from 25 units per year, which materially shortens lead time in constrained periods.
- Spare parts availability and consumable kits are quoted alongside each release; parts pricing is held for the framework period.
- Brand substitution within the same tier may be offered where a factory slot is unavailable, subject to buyer's written acceptance.

NOTES AND QUALIFICATIONS

- All prices are indicative ranges, exclusive of freight, insurance, duty, VAT and local registration or homologation.
- This document is an offer to discuss terms, not a binding contract. A binding sale arises only on a countersigned order confirmation or proforma invoice.
- Technical data is taken from manufacturer literature and may differ by market and model year; final specification is confirmed per order.
- Title to goods passes on receipt of payment in full.
