

Fix List for Codex — Live & Verified

WordPress + WooCommerce + Elementor · <https://kaisercontainers.de> · 2026-07-26

This store is close. The hard German items are already done — a real, complete Impressum (Kaiser Williams, Duisburg), a Widerrufsbelehrung, all legal pages, and real prices. The only real problem is leftover theme-demo content in the header/footer shown on every page. Rules: edit the LIVE site, verify each change from the public URL (not an API “200 OK”), and **never invent facts**.

STEP 0 · REVIEW & PREFLIGHT (do not skip)

- Review current state (run the Definition-of-Done first) so you only touch what still fails.
- Prove you can write to the LIVE site before editing:

```
wp option update blogdescription 'LIVEWRITE-OK-88' && wp cache flush
curl -s https://kaisercontainers.de/ | grep -o 'LIVEWRITE-OK-88' # must print it; if not, STOP
wp option update blogdescription '<real tagline>'
```

- Back up first. Re-verify each change from the public URL and report before/after.

FACT NEEDED FROM THE OWNER (do not invent)

- The exact real street address to display (street + house number, PLZ, Ort). The Impressum lists the district “Homburg/Ruhrort/Baerl, 47138 Duisburg” but no street/number — the visible contact block needs the full address. It must match the Impressum.

FIX 1 · Purge the fake demo contact block (site-wide)

Every page’s header/footer shows a fake “Our Address · House 35 R/A, Street”, contradicting the real Duisburg address in the Impressum. Replace it, and fix the Elementor header/footer block:

```
wp search-replace 'House 35 R/A,Street' '<REAL_STREET_ADDRESS>' --all-tables
wp search-replace 'House 35 R/A, Street' '<REAL_STREET_ADDRESS>' --all-tables
# Elementor → Templates → Theme Builder → Header/Footer → replace the 'Our Address' block → Update
# WooCommerce → Settings → General → Store Address = same real address
wp cache flush
# VERIFY (all 0): for u in / /kontakt /ueber-uns /impressum; do
  curl -s "https://kaisercontainers.de$u" | grep -c 'House 35'; done
```

FIX 2 · Remove demo email + placeholder name (no new fact needed)

```
wp search-replace 'name@beispiel.de' 'info@kaisercontainers.de' --all-tables
# find + remove the 'Mustermann' placeholder (likely a demo testimonial/contact block):
wp search-replace 'Mustermann' '' --all-tables # or replace with real content in the editor
wp cache flush
# VERIFY (both 0):
curl -s https://kaisercontainers.de/ | grep -Eic 'beispiel\.de|mustermann'
```

FIX 3 · Translate the leftover theme UI to German (no new fact needed)

English demo strings on a German storefront: “Sing Up” (typo), “Our Address”, “Call Us”, “e-mail us”. Translate them:

```
wp search-replace 'Sing Up' 'Anmelden' --all-tables
wp search-replace 'Our Address' 'Adresse' --all-tables
wp search-replace 'Call Us' 'Rufen Sie uns an' --all-tables
wp search-replace 'e-mail us' 'E-Mail' --all-tables
wp cache flush
# VERIFY (0): curl -s https://kaisercontainers.de/ | grep -Eic 'sing up|our address|call us'
```

FIX 4 · Polish — meta description + real reviews

- Add a German homepage meta description in the SEO plugin; regenerate the sitemap.
- Add real reviews / a trust badge only (Google Customer Reviews, Trustpilot, or verified-buyer widget) — Google best-practice #2. Never fabricate reviews.
- Fill Merchant Center → Business information settings with the same real name/address (best-practice #4).

DEFINITION OF DONE — run against the public URL

```
for u in / /kontakt /ueber-uns /impressum /widerruf; do
  curl -s "https://kaisercontainers.de$u" | grep -Eio "House 35|beispiel\.de|mustermann|sing up|our address" \
  | sort -u | sed "s|^|$u: |" ; done          # expect NO output
curl -s https://kaisercontainers.de/kontakt/ | grep -c "47138 Duisburg" # >0 (real address shows)
```

Report back the sweep output. “Done” = no demo strings anywhere + the real Duisburg address shows on /kontakt — verified on <https://kaisercontainers.de>, not on API responses.

Generated by the GMC Audit Bot skill. Not legal/tax advice — confirm the displayed address and VAT obligations with a German advisor. Merchant Center approval is discretionary.
